

Since January 2020 Elsevier has created a COVID-19 resource centre with free information in English and Mandarin on the novel coronavirus COVID-19. The COVID-19 resource centre is hosted on Elsevier Connect, the company's public news and information website.

Elsevier hereby grants permission to make all its COVID-19-related research that is available on the COVID-19 resource centre - including this research content - immediately available in PubMed Central and other publicly funded repositories, such as the WHO COVID database with rights for unrestricted research re-use and analyses in any form or by any means with acknowledgement of the original source. These permissions are granted for free by Elsevier for as long as the COVID-19 resource centre remains active.

Correction to Lancet Diabetes Endocrinol 2014; 2: 307–20

Bolland M J, Grey A, Gamble G D, Reid IR. The effect of vitamin D supplementation on skeletal, vascular, or cancer outcomes: a trial sequential metaanalysis. Lancet Diabetes Endocrinol 2014; 2: 307-20-In this Article, Ooms et al (1995) has been removed from the meta-analysis as patients were a subset of those included in Lips et al (1996). Corrections have been made to the summary findings, the main methods and results sections, figures 5 and 6, table, and references. All risk ratio changes were less than 0.01. The appendix has also been corrected. These corrections have been made to the online version as of Sept 15, 2020.

Correction to Lancet Diabetes Endocrinol 2020; 8: 672–82

Black DM, Bauer DC, Vittinghoff E, et al. Treatment-related changes in bone mineral density as a surrogate biomarker for fracture risk reduction: meta-regression analyses of individual patient data from multiple randomised controlled trials. Lancet Diabetes Endocrinol 2020; 8: 672–82—The x-axes in figure 2 in this Article were incorrectly labelled. They have been corrected as of September 15, 2020.

Correction to Lancet Diabetes Endocrinol 2020; 8: 782–92

Apicella M, Campopiano MC, Mantuano M, Mazoni L, Coppelli A, Del Prato S. COVID-19 in people with diabetes: understanding the reasons for worse outcomes. Lancet Diabetes Endocrinol 2020; 8: 782–92—In this Review, the following references have been corrected: 20, 24, 82, and 84. In addition, the text in the first row of table 3 has been amended. These corrections have been made to the online version as of Sept 15, 2020.
